Annual Report for Stormwater 2025

The Stormwater department continues to function at a high level and within budget. We have been busy repairing and replacing stormwater infrastructure as well as investigating issues. The following is a list of completed tasks related to the stormwater program:

- 1,857 locate tickets were fulfilled.
- 25 stormwater-related issues were investigated.
- 628 stormwater inlet structures were cleaned.
- 8 stormwater outfall structures have been remediated.
- Major stormwater repairs were undertaken at Heron Harbor, Cilantro, and Fuchsia, with several others in process to be completed.
- Minor stormwater repair projects included: Bluebell pipe seal; Palmyra inlet lid replacement; Mandrake junction box repair; Beachwood Cove berm installation; and Cove #4 pond riser repair.
